

TUMTCIV SVIATOSLAV

Full-Stack Web Developer

Information
+380988629189
svtm1234567@gmail.com
Lviv, Lviv region, Ukraine

Language
Ukraine
Level: Native
English
Level: Intermediate (B1)

Tech skills
HTML5 & CSS3
Semantic HTML, BEM,
Responsive Design,
CSS Animations,
Tailwind CSS

JavaScript & TypeScript
ES6+, TypeScript,
OOP, Data Structures,
Axios

React.js & Frontend
React, Next.js, Redux,
React Router,
Google Maps API

Node.js & Backend
Node.js, Express.js,
MongoDB + Mongoose,
Prisma ORM,
REST API design

Tools & Other
Git, GitHub, VS Code,
Postman, Figma

PERSONAL STATEMENT

Full-Stack Developer with hands-on experience building scalable web platforms using React/Next.js on the frontend and Node.js/MongoDB on the backend. I've developed real-world projects, including a full-stack e-commerce site for a footwear brand (with product catalog, cart, and checkout flow) and a student web portal, gaining practical experience in REST API integration, database management, and building seamless user interfaces. I'm motivated to keep growing as an end-to-end software engineer and contribute to a professional team.

EDUCATION

2022 – 2026 · Junior Bachelor in Software Engineering

Sambir Vocational College of Economics and Information Technologies

- Graduated with Honors in field 121 (Software Engineering). Built a strong foundation in computer science, object-oriented programming (C++), and software architecture.
- Developed a comprehensive web application, "Student Platform", as a final qualification project.

2022 – 2026 · Full-Stack Web Development Course

Creator IT Academy (Sambir, Ukraine)

- Completed intensive practical training focusing on building full-stack web applications from scratch.
- Mastered modern frontend and backend technologies (TypeScript, React, Next.js, Node.js) through real-world projects like the "SlickStore" e-commerce platform.

PROJECT CASES

Slick — Full-Stack E-Commerce Platform

React · Next.js · Node.js · MongoDB · Tailwind CSS

- Built a complete e-commerce solution for a footwear brand with product catalog, cart, and checkout flow.
- Implemented REST API with Node.js/Express, MongoDB for data storage, and JWT authentication.
- Designed responsive UI with Tailwind CSS and integrated Stripe payment gateway.

BentoBuilder — Developer Portfolio Constructor

Next.js · TypeScript · Prisma ORM · PostgreSQL · Tailwind CSS

- Built a highly customizable bento-grid portfolio platform allowing developers to create interactive, widget-based profiles featuring a personalized AI assistant.
- Optimized application performance and rendering architecture by strategically implementing Next.js Server and Client Components while resolving hydration mismatches.
- Engineered dynamic AI prompts to ensure strictly scoped, hallucination-free assistant responses based on the user's specific tech stack and bio.

SiteMonitor — Uptime Monitoring Web App

React · TypeScript · Tailwind CSS · Node.js · MongoDB

- Developed a real-time website availability monitoring application with automatic URL ping checks and interactive uptime statistics.
- Implemented full CRUD functionality for managing tracked resources alongside visual status dashboards and performance charts.
- Integrated a Telegram bot notification system for instant alerts regarding server downtime and service recovery.
